

New Clinic: Trialing Strategy from a Judging Perspective with Martha McHardy

Why?

I cannot count how many times I've watched or walked off the trial field and heard someone (or myself) say "Oh, I didn't know you couldn't do that". I only wish there had been a clinic like this available when I started sheepdog handling.

Target Audience:

This clinic is targeted for handlers who are planning to trial and for handlers who have been trialing and would like to have a better understanding of the rules and scoring practices judges use.

Overview:

Come join us as expert handler Martha McHardy guides us through the score sheet and helps us understand what judges are looking for.

This clinic will provide you with the insight to better understand how trials are judged and how the rules applied to each aspect of a run such as the Outrun, Lift, Fetch, Drive, Shed and Pen.

Whether it be for your own trialing knowledge or you may be considering judging in the future, this clinic will provide you with the tools you need to go to the next step.

Content:

- Overview of trials, types and etiquette
- Discuss individual trial stages with applicable rules
- Video analysis of open handlers runs with judging commentaries
- Field work & Real time judging comments
- Video review of your run with judging highlights

Date / Time

1 and 2 May, 2010. Start time 9:00 a.m.

Cost

\$200.00 (Canadian)
Limit: 10 handlers and dogs max.
